

October 26, 2023

Angelika Schlanger, PhD
Executive Director
McKnight Brain Research Foundation
PO Box 620005
Orlando, FL 32862-0005

Dear Dr. ~~Schlanger,~~ *Angelika,*

On behalf of the Foundation for the National Institutes of Health (FNIH), thank you for McKnight Brain Research Foundation's (MBRF) contributions of \$155,230 and \$49,847 in support of the Cognitive Aging Summit IV. We are grateful for these gifts, which were received on June 6, 2023 and September 20, 2023. These represent the first and second payments on your generous commitment of \$313,573.28.

The Cognitive Aging Summit IV will be held March 20-21, 2024 at the Bethesda North Marriott Hotel & Conference Center in Rockville, MD. The National Institute on Aging (NIA) will convene the Summit, featuring presentations and discussions on promising areas of research investigating age-related brain and cognitive changes. With a special focus on precision aging and brain health, the fourth Cognitive Aging Summit will explore individual differences in cognitive performance, brain function, and adaptation. The summit will also look at the factors that drive these individual differences with the goal of fostering collaboration to design prevention and intervention trials in the context of precision health.

We are grateful for the McKnight Brain Research Foundation's support of this area of research and of the Cognitive Aging Summit series. Your support truly helps to accelerate the pace of discovery and innovation in the United States and across the world. Thank you again for your partnership and commitment to the future of health.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Matt Slater', is written over a horizontal line.

Matt Slater
Director of Corporate and Foundation Relations

*Thank you Angelika!
Looking forward to a
great Summit!
- Matt*
