

Suggestions Made by the MBI Leadership Council To be incorporated into an Organizational Brochure

January 25, 2019

Considerations provided by the MBI Leadership Council at their October 24 Meeting to be incorporated into an Organizational Brochure:

1. A short summary statement of the “charge” to all McKnight Institutes from the McKnight Brain Research Foundation, and the power of having 4 interactive Institutes, who bring differing expertise to bear on a common problem.
2. A statement of what is really unique about the creation of these 4 McKnight Institutes. In part it is in bringing together across disciplines focused, productive collaborations amongst scientists from across the country.
3. An example benefit of having the 4 Institutes is that a donation to one Institute will have a positive impact across the country – at the very least helping all regions in which they reside.
4. Describe the unique contributions of each MBI, and the interdisciplinarity in the way they approach scientific questions – bringing our science from the bench to the community, leveraging many technologies to answer our questions.
