**Importance:** High

Good morning, Melanie! Please print and bring copies for everyone to the meeting in Tucson or load onto the website for access by those who will be "surfing". :~)

Thanks,  
Lee

Hi Lee,

Would be glad to – the list is below. We'd also like to set up a study sponsor call – we realize that we have no idea of when the government sponsors will be available but it would be great to go ahead and schedule a time and we'll hope they're back at work by then.

Could you let me know some times that you are available the week of Oct. 28<sup>th</sup> or Nov. 4<sup>th</sup>?

Additional sponsor information:

NIH (NIA and NHLBI): \$150,000

AARP: \$20,000

CDC: \$70,000 (expected)

VA: ? (they have not indicated an amount)

Retirement Research Foundation: potentially a sponsor for the last part of the study, they will not be deciding until February and haven't indicated an amount

Thanks for your support and look forward to talking soon.

Thanks,  
Cathy

**Subject:** Re: Cognitive Aging Study

Dear Cathy,

Thanks for your reply with the good news that the AARP has decided to sponsor the cognitive aging study, although the level of commitment was not mentioned. It is unfortunate that circumstances within the government has delayed the responses from the CDC and the VA. It would be helpful if you could provide a

Hi, Cathy,

The trustees of the McKnight Brain Research Foundation will be meeting in two weeks and I'm wondering if there is an update on the status of the cognitive aging study which can be reported to the trustees.

It is hoped you have enjoyed a wonderful summer and the beautiful fall season for the Washington Area is in full swing.

With appreciation for your anticipated reply and best wishes,

Lee
