Dear Angelika,

Thank you for your correspondence regarding the FY23 annual report. I know that Dr. Bizon has already responded to most of the questions raised by the trustees. I am writing to specifically address the plans for Dr. Cohen's transition and the recruitment process for the new occupant of the Chair for the Clinical Translation in Cognitive Aging. The Chair currently occupied by Ron Cohen will revert to the College of Medicine following Dr. Cohen's retirement per the MOU guidelines. I have consulted with Dr. Hunt, the interim Dean of College of Medicine, and she is supportive of launching a search to fill that Chair in the next academic year. To ensure the occupant fits the mission of the McKnight Brain Research Foundation, we would encourage a member of the Board of Trustees to sit on the search committee. More information will be forthcoming as the search is launched. I have also attached the updated organizational chart requested.

Please do not hesitate to reach out if you have any remaining questions.

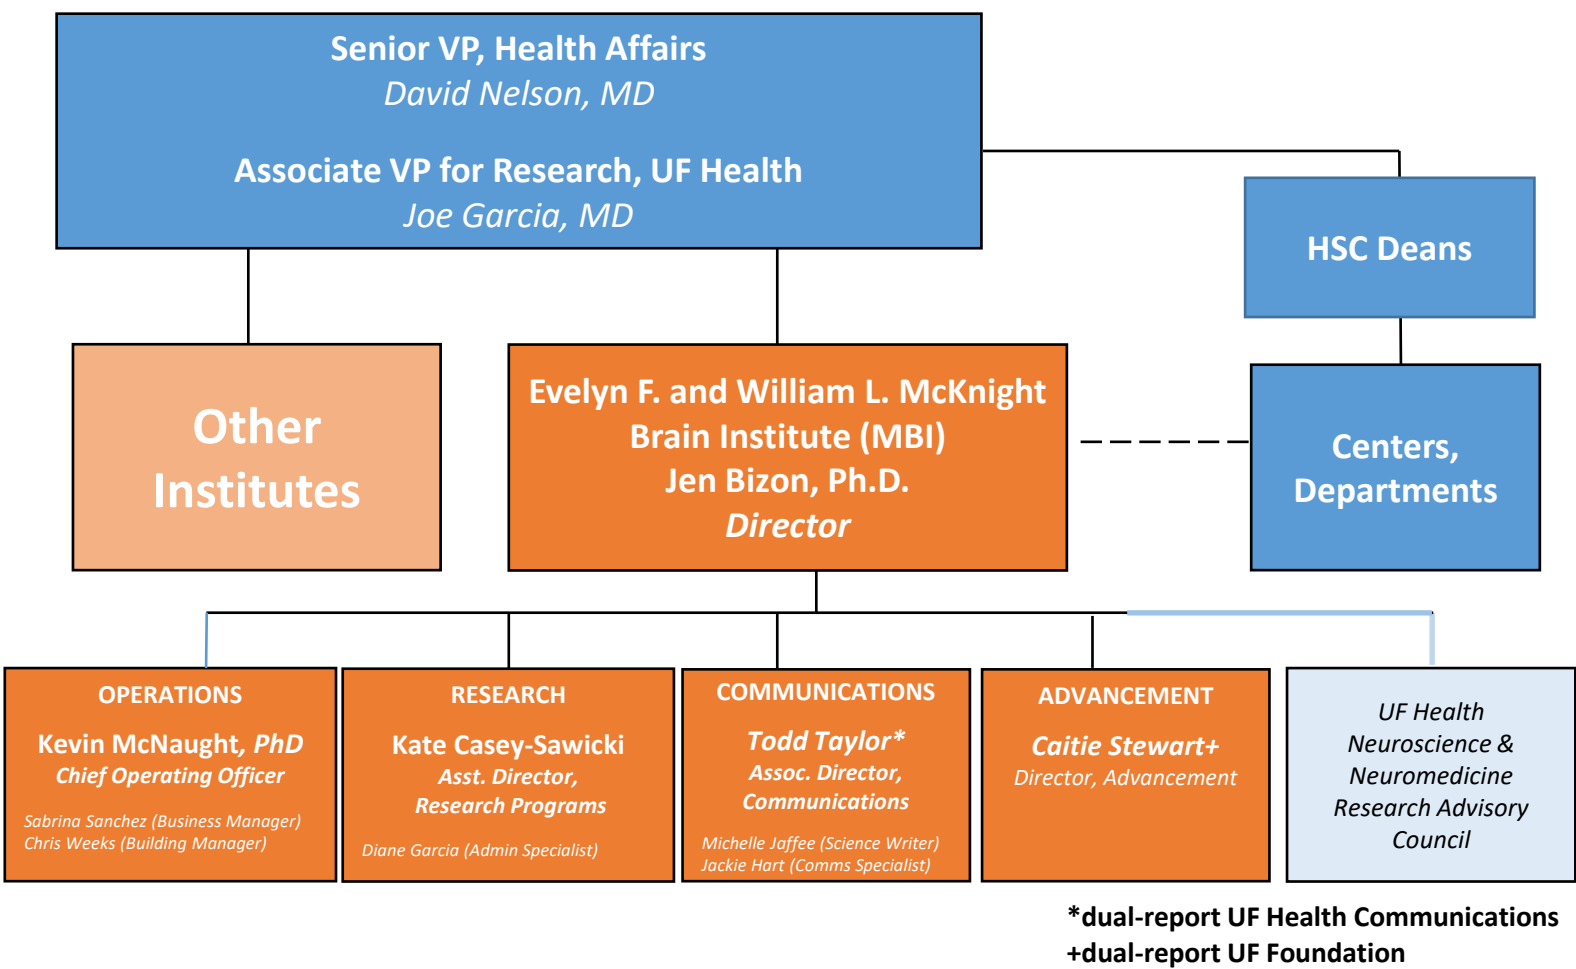

Sincerely,

David R. Nelson, MD
Senior Vice President for Health Affairs, UF
President, UF Health
